

Tandberg StorageLoader LTO

The 1U AutoLoader that Evolves with the LTO Roadmap

The Tandberg StorageLoader LTO offers the largest storage capacity, highest performance and best value for money of any product in its class. The StorageLoader LTO costs slightly more than a standalone tape drive, but offers a considerable greater return on investment as it automates the swapping of daily backup tapes reducing the risk of data loss, saving you time and money.

The StorageLoader LTO offers scalable capacities up to 12.8TB* in a compact 1U form factor, providing the highest capacity, highest performance (up to 864GB/hr*) and data density on the market. The StorageLoader LTO is available with either LTO-2, LTO-3 or LTO-4 tape drives, with a choice of LVD SCSI or SAS connectivity.

The StorageLoader LTO holds two 4-slot removable magazines storing a total of 8 data cartridges. Each magazine can be ejected using the front panel interface, in the event of a power failure there is an emergency magazine eject feature.

The StorageLoader LTO is easy to install, easy to use and is supplied with a barcode scanner, barcode labels and a rack-mount kit. The StorageLoader LTO includes the latest security and data protection features, such as Encryption and WORM (Write Once Read Many) to assist you with meeting today's data storage and archiving regulatory requirements.

The Web browser-based remote management interface allows you to monitor, control, configure and diagnose problems from anywhere in the world.

The StorageLoader LTO provides outstanding value for IT managers that require a easy to use, scalable, flexible, reliable and future proof backup and data protection solution.

Key Benefits

- == **High Capacity in a small footprint**
Up to 12.8TB* storage capacity in a compact 1U form factor
- == **High Performance**
Transfer rates up to 240MB/s* or 864GB/hr*
- == **Grow with LTO Roadmap**
Select LTO-2, LTO-3 or LTO-4 Half Height Drives
- == **3yrs Warranty and 1yr Advanced Replacement**
Component level: drive, power supply & fan
- == **Minimise Downtime**
Field replaceable drives and power supplies and fans
- == **Ease of Use**
Remote management and removable magazines for bulk loading and easy off-site storage

* Assumes a 2:1 compression ratio

The Tandberg StorageLoader LTO
combines high capacity and performance
in a scalable 1U form factor.

About Tandberg Data

Tandberg Data is a leading global supplier of backup and archiving technologies. Tandberg Data offers a complete range of tape libraries, tape autoloaders and tape drives (based on the LTO™, SLR™, VXA® tape technology platforms), storage software, data media and disk-based storage such as the RDX® QuikStor™. These solutions are marketed exclusively through a channel of qualified resellers and distributors. These solutions are underpinned by OEM agreements with major server manufacturers including IBM, Hitachi, Fujitsu, Fujitsu-Siemens, Apple and Dell and supported by all major operating systems and storage software applications to operate in heterogeneous network environments. All solutions are designed to meet the growing storage requirements of small and medium-sized organisations with scalability, reliability and backward compatibility features that ensure cost effective operation and long-term investment protection.
